Piano Playing Made Easy

To play music in any key other than that in which it is written is difficult for most performers.

Norris & Hyde Pianos

instantly transpose any song to suit any voice. They are the *only* pianos which transpose a full chromatic octave. With them any player can just as easily play any piece in any or all other keys as in the original key, and any singer can sing any song in exactly that key in which the voice sounds best. Instrumentalists may play in any key easiest for them.

This adds great value to these instruments, which are also superior in all other respects. They suit the most exacting critic, and are indorsed by prominent musicians everywhere. Any child can operate the Movable Key-board, and it cannot be gotten out of order. While pre-eminent instruments for the home, voice teachers, singers, churches, schools, and theaters, find them an indispensable convenience. Our Catalogue No. tells all about them. Send for it free.

We are also Sole Representatives for the Celebrated Steinway Pianos.
